

PUSH PULL SERVOACHSE UNIVERSALLY APPLICABLE AXLE

For the most diverse

**physical test tasks in the test
laboratory**

- Now with servo-motor drive (pneumatic cylinder set)
- inclusive DMS course / pressure force sensor to the actual force
- Axle in two different standard stroke length 320 mm and 500 mm (individual stroke lengths possible)
 - Positioning accuracy 1 / 10 mm
- Ideal actuator to determination of force / way diagrams.
 - Servo Push-Pull-Axis can be incorporated also as a single component into your available test technology for example pressure air cylinder replacement.
