

TORQUE MEASURING DEVICE FOR BOTTLES TB 0 TO 20 NM

Torque Measuring Device for Bottles TB 0 to 20 Nm

Technical Data:

- Accuracy: < 1% of max
- integrated printer Mini Statistics Package, averaging of up to 10 stored measured values, min and max, n
- Max. Overload protection, 150% of Max.
 - Peak Hold function
 - selectable units: Nm LBinch
 - simple operation

Vascular Bracket:

- Quick lock, no need for tools
- possible vessel diameter: 16 - 140 mm
 - Clamping Screw
 - solid construction
- overload protection for the robust use of vessels

SKU: d9d4f495e875
